DAILEIREANN REJECTS DeVALERA'S SUBSTITUTE

FOR IRISH PEACE TREATY WHICH WILL BE VOTED ON SAT.

SINN FEIN PARLIAMENT DECIDED ORIGINAL TREATY MUST BE FIRST VOTED ON

SESSION OF DAIL WAS PRIVATE— MEMBERS CONFESSED NO AGREEMENT REACHED

(By United Press.)
Dublin, Jan. 6.—Eamonn De Valera's proposal for an alternative treaty to replace the one signed by the Irish and British delegates in Downing Street, was rejected by the Dail in a secret session today.
The Sinn Fein parliament decided that a vote on the original treaty must first be taken.
This will probably be done tomorrow. As the private session of the Dail broke up, members confessed it had failed to reach any semblance of an agreement.

De Valera Resigns As Irish President
Dublin, Jan. 6.—Eamonn De Valera after presenting his resignation as president of the Irish Republic to the Dail today, withdrew it upon the condition that a vote be taken on the peace treaty with England tomorrow.
In his speech of resignation which carried with it the dissolution of his ministry, De Valera declared that he would only remain at the head of the Sinn Fein affairs as a "republican." Later he agreed to remain as president if a vote were taken tomorrow.

Earlier in the day, the Dail refused De Valera's alternative proposal which he submitted to take the place of the treaty signed at Downing street.
"I will never be a British subject," De Valera exclaimed, indicating his belief the treaty was about to be ratified.

TWO BANDITS BIND ABRAHAM TO SAFE

(By United Press)
St. Paul, Jan. 2.—Two bandits bound Abraham Rosenthal to his safe last night and robbed him of \$75, and escaped.

Fire in Minneapolis Drives 7 Families and 50 Men Into Streets

(United Press)
Minneapolis, Jan. 6.—Seven families and fifty jobless men were driven to the street in sub zero weather early today by three fires which caused total damage estimated at \$16,500.
The Montana Lodging house on Washington avenue, burned and fifty jobless men were hurried out.
George Molde, proprietor, and his wife ran through the building warning the men until both were overcome by smoke and had to be carried from the building by firemen.
A duplex occupied by A. Goldstein and C. Gold was destroyed, and both families forced to flee.
Four families were driven from an apartment building on Lyndale avenue.

Keller Announces Candidacy For Mayor of St. Paul

(By United Press.)
St. Paul, Jan. 6.—Oscar E. Keller, now representative in Congress has joined in the race for mayor of St. Paul.
Keller's nomination, however, was thought to be unauthorized. He is expected to run for congressman again in the June primary.

New York Man to be Ambassador to Germany

(By United Press)
Washington, Jan. 6.—Announcement of the nomination of Rep. A. B. Houghton, of New York, as ambassador to Germany, is expected shortly. From authoritative sources it was learned today that the usual inquiry as to whether he would be acceptable was sent some days ago and a reply is expected at any time.

FOLLIES BEATUY RE- SENTS HAVING MAID AC- CUSED OF BOOTLEGGING

(By United Press.)
Chicago, Jan. 6.—Jessie Reed, Follies beauty, added stage door Johnnies to her list of "don'ts" today. Miss Reed took this degree at "Dashing Dan" Caswell, heir to the Caswell millions, whom she is suing for divorce. "What do you think of that, girls?" Miss Reed exclaimed to the Follies beauty chorus when told that Caswell had filed a cross bill alleging among other things, that Jessie's maid was a bootlegger, and he had to buy drinks from her.
One of the first things Miss Reed wanted to know was who started calling her husband "Dashing Dan." "The only thing I ever knew him to dash was a drink, and then dash out after more," the highest priced chorus girls on the stage said.
"Dan is a good boy, in a way, and will have some money some day. It is being held for him until he is 26 years old, but I can't place much hope in that. And I really did like him until he accused my maid of being a bootlegger," said Jessie as she sipped a cigarette and the interview.
Caswell first met Jessie on a train. He was on his way to present Virginia VanSant, daughter of a former governor of Minnesota, with an engagement ring. But he fell in love with Jessie and gave her the ring and they were married. Jessie has been married before, and has a daughter in Texas.

Louis W. Hill Declines Re-election as Director of N. W. Trust Company

(By United Press)
St. Paul, Jan. 6.—Louis W. Hill declined to accept re-election as director of the Northwestern Trust company because seven of his brothers and sisters who are contesting with him for control of their mother's estate, are in control of the company. It is one of the biggest financial institutions in the northwest.

Hill's action was expected since the seven heirs opposing him are petitioning the Ramsey county probate court to make the Northwestern Trust company administrators of the estate of their mother.

Louis Hill and one sister, Mrs. Mary Hill, of Washington, seeks to obtain administration papers in the name of Louis Hill. The estate is valued at \$15,000,000. Mrs. Hill died Nov. 22nd. The contest for control of her estate is shaking railroad and financial circles of the country.

Settle Dispute Out of Court
Indications today pointed to a complete and amicable settlement of the Hill will contest out of court. Quiet efforts were being made today to bring the opposing heirs together. Cool heads in the faction were said to be attempting a reconciliation. It might be brought to that in a few days, it was reported.

Hill family differences and unpleasant publicity would be avoided by settlement before the contest is called in probate court January 27th.

Would Organize Branch of Order of Camels

(By United Press.)
St. Paul, Jan. 6.—The Camels are coming. A long-haired pastoral looking gentleman announcing himself as Zachary Jackson, applied to police today for authority to organize a branch of the Order of Camels here.
The order originated in Wisconsin simultaneously with the Volstead act. Jackson described the order as a religious cult and only requires a daily supplication and application of large quantities of wine.
Jackson was told to apply to the prohibition enforcement director in Minneapolis.

3 Hurt as Still Blows Up

Jersey City—All three members of a family injured in the explosion of a still in their home are in a Jersey City hospital and none is expected to recover. They are Peter Petrokovitch, a laborer, his wife and their 3 year old daughter. All were scalded from head to foot. Petrokovitch was working on his still in the kitchen of his home when the apparatus exploded. Flames threatened the entire tenement building in which they lived.

LLOYD GEORGE PRO- POSES INTERNATIONAL AL ECONOMIC ACTION

TO REHABILITATE EUROPE AND IT IS ACCEPTED IN PRINCIPLE BY SUPREME COUNCIL

SAYS GERMANY MUST NOT BE PUSHED INTO BANKRUPTCY AND RUSSIA RECOGNIZED

(By United Press.)
Cannes, France, Jan. 6.—Lloyd George's proposal for an international economic action to rehabilitate Europe was unanimously accepted in principle by the supreme council here today.
The resolution introduced by the British premier, required negotiations with Russia.
"Danger worse than Bolshevism would result from pushing Germany too far toward bankruptcy," Lloyd George declared, in his speech introducing the resolution.
In an hour long address, the statesman outlined England's viewpoint. He said Europe must negotiate with Russia.
Germany's foreign trade must be revived.
Central Europe must be rehabilitated.
Eastern Europe must be put in order.
The victors in the late war must accept the responsibility for the state of Europe.
Referring to Russia, Lloyd George declared: "We must make peace some time. How are we going to do this unless we deal with all established governments?"
Lloyd George told the supreme council that forcing Germany into bankruptcy would result in the same situation as exists in Russia.
It would be an even greater danger to the world, he declared. Germany, he said, is a more powerfully organized race than Russia, and, turning to the French as he spoke, the danger would be greater to those countries whose frontiers were closest to Germany.

U. S. Will be Invited
The United States will be invited by the allied supreme council to take part in an international conference at Genoa during the first fortnight in March. The supreme council this afternoon following its acceptance in principle of Lloyd George's proposal for such a conference, voted that it would meet at the Italian city and to invite the former enemy states of Germany, Austria and Bulgaria as well as the United States.
Russia will also be invited to send representatives if the Soviet government conforms to certain conditions among them guaranteeing the Russian debt.

QUARRELS WITH WIFE ATTEMPTS TO SUICIDE

(By United Press.)
St. Paul, Jan. 6.—Raymond Malken, 37, attempted to commit suicide by shooting himself early today. He had a quarrel with his wife and she threatened to leave him. He is in a serious condition at the City hospital with a bullet in his neck.

POLICE CHIEF QUILTS TO WRITE SCENARIO

(By United Press.)
Cleveland, Jan. 6.—Cleveland's "best police officer" has quit the force.
Inspector John Rowlands, who the records show was never late a single day, retired from the department after 29 years efficient service.
He's left it, folks say, because he thought he would be going out anyway shortly after the new city administration took power.
Twenty-seven of Rowland's 29 years as a policeman were spent "on the street," as a patrolman, sergeant, lieutenant and captain.
Rowlands was the undoing of the Santa Claus murders in 1902. In 1913 he wrote a story of it for a local paper. Now he's getting up a movie scenario on the crime and the men responsible for it.

LOST \$2,000 IN CONFIDENCE GAME

(By United Press.)
St. Paul—Joseph Woytuk was willing to take care of a bag full of gold, and currency for a new friend, and he was also willing to put his life savings of nearly \$2,000.00 in the bag as evidence of good faith.
Today Joseph and the police are looking for the two men who gained his confidence.
The gold had turned out to be building bricks, and the currency to waste paper when Joseph opened the bag.

BIG SAVING THROUGH STOCK AGENCY TOLD

REPORT OF W. A. MCKERROW, MANAGER OF CENTRAL PLANT, SO. ST. PAUL, READ

Approximately \$43,000 was saved by farmers in less than five months through the operation of the Central Co-operative Commission association, a co-operative live stock marketing enterprise sponsored by the farm bureau federation, according to the report of W. A. McKerrrow, manager of the association read before delegates attending the third annual state convention of the Minnesota Farm Bureau federation in St. Paul.

Mr. McKerrrow's speech was read by C. B. Crandall, president of the association. Mr. McKerrrow was taken ill Tuesday night, and was unable to attend the meeting today.

Since opening for business on the South St. Paul live stock market, August 8, last, the commission association has done a gross business of \$5,000,000, the report said. A quarter of a million animals have been handled by the organization, he said, at commission charges approximately 25 per cent lower than those fixed by private firms.

In less than five months, the report continued, the farmers' central sales agency has accumulated a surplus of \$26,000, to be returned to the farmers as patronage dividends, and has saved the producers at least \$17,000 in cash by handling stock at lower commission rates.

"Within a few months, the farmers will place their own farmer-controlled and farmer-managed firms on the leading live stock markets of the United States," Mr. McKerrrow said. "Their success already is absolutely assured."

"A comprehensive study of livestock marketing and production has been made by the committee of fifteen appointed by the American Farm Bureau federation; their work has resulted in a plan for a co-operative marketing structure on a national scale. Interwoven with this plan is a scheme for the development of orderly marketing that goes back even to the pasture and the feed lot, and for the development of more local co-operative shipping associations, improvement in railroad transportation and the establishment of farmer-controlled co-operative agencies to centralize the marketing of live stock on the great terminals of the country."

Selling Agency Big Factor
"The most successful live stock enterprise ever launched by farmers, in all probability, is the central selling agency at South St. Paul. It is made up of 300 local shipping associations, with a total membership of nearly 90,000 farmers. The whole investment of the individual farmer in his central selling company does not exceed 40 cents."

Since August 8, last, this agency has handled approximately 19 per cent of the cars of live stock arriving at South St. Paul. It handled 442 cars in the last three weeks of August, 781 in September, 1,100 in October, 1,292 in November and 534 in the first half of December.

"The stocker and feeder department of the association takes the place of the speculator. On a bad market, this department may buy the stockers and feeders if there is no other satisfactory outlet for them, paying the highest price it feels justified in paying. This department is used only when necessary; in most cases, such cattle are sold direct from the farmer producer to the farmer feeder. The association has shipped out 11,410 head of cattle."

FARMER MUST SET PRICE OF PRODUCTS THAT HE PRODUCES

SAID THE NEW PRESIDENT OF THE MINNESOTA FARM BU- REAU FEDERATION

J. M. REED, OF LAC QUI PARLE COUNTY, IS ELECTED OVER L. E. POTTER

(By United Press.)
St. Paul, Jan. 6.—"The farmers eventually must reach the position where they can set the price on the goods they produce," said J. M. Reed, of Lac Qui Parle county, the new president of the Minnesota Farm Bureau Federation.

He was elected late yesterday by a big majority over L. E. Potter, of Springfield, retiring executive.

"The manufacturer knows what his goods cost him to produce, and he sets the price to be paid for it," said Reed. "Likewise, co-operative marketing must be developed until the farmer is able to sell his goods for a price that will give him a fair profit above the cost of producing."

"It is unfair and unjust that American farmers should go on raising products and selling them at prices set by agencies beyond his control and without regard for cost of producing."

F. E. Lammers, of Lakeville, was elected vice-president, and Victor Anderson, of Wheaton, was re-elected treasurer.

Mrs. E. V. Ripley, of Park Rapids, was unanimously elected to the executive board and is the first woman to hold such an office in the federation.

Thomas E. Cashman, of Owatonna, J. J. Jacobson, of Bowlsby, George W. Freeman of Zumbrota, I. A. Pyle of Madison and M. L. Warner of Warren, were also named to the executive board.

CUDAHY-FRANCIS WEDDING HALTED

(By United Press)
Los Angeles, Jan. 6.—The wedding of John R. Cudahy and Miss Louise C. Francis which would have united two prominent and wealthy families, was halted a few steps from the altar today.

Neither Cudahy, son of the late John Cudahy, of Chicago, or Miss Francis, daughter of Mr. and Mrs. Arthur G. Francis of St. Louis, can be located. Mutual friends stated they had fled in opposite directions.

The two were to have been married today. The wedding plans were announced by Mrs. Francis from Santa Monica a few days ago. At the Francis home it was announced the girl and her mother had gone "touring."

Cudahy is reported to be in seclusion with friends in a nearby suburb. Cudahy's mother refused to comment on the whereabouts of her son.

Cudahy is a cousin of "Jake" Cudahy, sportsman, who committed suicide recently.

N. W. Tel. Co. Sued For \$5,100 Damages

(By United Press)
Duluth, Jan. 6.—Declaring a "sudden violent shock" from a telephone receiver destroyed the hearing of the left ear, Isabelle Boltman asks \$5,000 damages from the Northwestern Bell Telephone company.

Isabelle Boltman, 33, of Duluth, claims that she was shocked by a telephone receiver which she was holding to her ear when it suddenly fell from her hand.

"On some days, the association has handled 7,000 hogs, 33 to 35 per cent of all hogs on the market."

"Farmers of Minnesota must realize that when they start to do business for themselves, men doing similar business will try to destroy their organization."

"There is just one thing the individual farmer should remember. That is to investigate things for himself, to examine complaints about co-operative marketing and base his opinions on facts and not on hearsay. Co-operative marketing will be a success beyond the hopes of its staunchest supporters if the farmers themselves give it loyal support its past record deserves."

CHARGES ARE FILED AGAINST GOV. SMALL OTHER CONSPIRATORS

(By United Press)
Waukegan, Ill., Jan. 6.—Special charges that Governor Len Small and other conspirators took \$533,000 in state funds, were on file with Judge Edwards today. The allegations were contained in a bill of particulars filed by the prosecution. Those alleged to have conspired with the governor are Fred Sterling, lieutenant governor; Werner Curtis, Grant Park banker, and the late Edward Curtis.
State funds deposited at the Grant Park bank at two per cent and afterwards loaned to Chicago bankers at five and eight and one-half per cent, the state alleges. Governor Small's attorneys are to appear in court at once to present objections to the bill. The actual trial is expected within a week.

ARTHUR BURCH ON TRIAL FOR MURDER ATTEMPTS SUICIDE

(By United Press)
Los Angeles, Jan. 6.—Arthur Burch, on trial for the alleged murder of John Belton Kennedy, tried to commit suicide at noon yesterday, according to carefully suppressed news which leaked out of the sheriff's office today.
Burch tried to kill himself by diving head first over the railing at the jail to the concrete floor fifty feet below, according to a report in circulation at the court house. Sheriff Manning and Deputy Patton seized him just as he was clearing the railing, it was said.

Cashier and \$260,000 In Funds of St. Louis Bank Are Missing

(By United Press.)
St. Louis, Mo., Jan. 6.—Arthur O. Meininger, cashier, and \$260,000 of the funds of the "Night and Day Bank" here were missing today. The bank was closed as examiners went over the books. The shortage in funds and absence of the cashier was made known in a statement issued by E. W. Meyer, a member of the board of directors.

MCKERROW FUNERAL TO BE HELD TODAY

(By United Press)
St. Paul, Jan. 6.—Memorial services for W. A. McKerrrow, prominent farm leader and statesman who died yesterday, will be held at 4 p. m. today. The body will be taken to McKerrrow's home at Pewaukee, Wis. His parents arrived last night and will take the body home.

ARBuckle's SECOND TRIAL IS POSTPONED

(By United Press)
San Francisco, Jan. 6.—Roscoe Arbuckle's second trial on charge of manslaughter, cannot start Monday as scheduled because of a crowded docket. This notification was given attorneys today by Judge Louderback. It is not thought that the delay will be long.

\$100 PER CAPITA INVESTED IN ROADS

(By United Press)
Kinston, N. C., Jan. 6.—A per capita investment of \$100 in good roads is the boast of Lenoir county, of which this town is the county seat. With a population of 35,000, the county's total investment in paved highways when its present program is completed will be approximately \$3,500,000. This, it is believed, establishes a record.

Every principal street in Kinston and every main road in the county will be hard-surfaced when the program is completed a few months from now. The concrete-asphalt roads lead to the boundaries of six adjoining counties.

A stretch of the Central highway which is 250 miles long and extending from the mountains of Western North Carolina to the ocean, passes through the county, and this for a distance has been converted into a memorial avenue for local war dead. The avenue begins at the Kinston municipal limit and terminates at the grave of Richard Caswell, first governor of the state after the revolution.

FIVE GREATEST NAVAL POWERS BANISH SUBS

NAVAL COMMITTEE OF ARMS CON- FERENCE ADOPT ROOT PROPOSALS

ACTION OF COMMITTEE IS FINAL AS FAR AS POWERS ARE CONCERNED

Washington, Jan. 6.—The five greatest naval powers of the world decreed yesterday as between themselves abolishment of submarine warfare against merchant ships. To purge the seas forever of this hidden menace to peaceful folk and ships, the world is asked to subscribe to the decree as a new principle of international law.

As adopted by the naval committee of the arms conference the resolution proposed by Elihu Root and amended by Arthur J. Balfour, to become immediately effective between the five signatory powers, runs as follows:

"The signatory powers recognize the practical impossibility of using submarines as commerce destroyers without violating, as they were violated in the recent war of 1914-1918, the requirements universally accepted by civilized nations for the protection of the lives of neutrals and noncombatants, and to the end that the prohibition of the use of submarines as commerce destroyers shall be universally accepted as a part of the law of nations they now accept that prohibition as henceforth binding as between themselves and they invite all other nations to adhere thereto."

Action of the committee is final so far as the conference and the five naval powers are concerned, the conference merely will give formal ratification to the anti-submarine pact when the five-power treaty in which it will be incorporated comes up in open session.

Naval Treaty Virtually Completed

Washington, Jan. 6.—The new naval treaty binding five great sea powers to a limitation of naval armament and expressing the hope that the smaller nations will live up to its spirit, was virtually completed today by the arms conference drafting experts.

The document, the first of its kind in the world's history, probably will be given to the world at a plenary session of the conference next week.

It may be presented to the full naval committee by the drafting experts before night, and after being given final approval then will be ready to take the center of the stage in the next plenary session.

The new treaty will include these main provisions:

1. Scrapping of 68 battleships by the United States, Great Britain and Japan.
2. Detailed methods to be used in such scrapping as revealed by the United Press Wednesday.
3. The following battleship ratios for the five powers: United States and Great Britain, 5; Japan, 3; France and Italy, 1.67.
4. Methods of replacement.
5. The Root resolution barring submarine warfare of the Lusitania type with the probable inclusion of provisions making it an act of piracy for a submarine commander to violate the rules.
6. Limitation of auxiliary craft and airplane carriers.
7. A provision for the calling for further conferences in the event of threatened war or serious political developments.

Any submarine commander or superior officer guilty of violating existing laws concerning sea warfare, will be treated as a pirate, the five powers agreed today, adopting the Root resolution to that effect.

STATE TREASURY HAS CASH BALANCE OF \$8,583,000

(By United Press.)
St. Paul, Jan. 6.—The state treasury had a cash balance of \$8,583,000 at the start of the calendar year January 1st, according to Treasurer Henry Kines and Auditor R. P. Chase, in addition to her permanent state funds totaling \$44,767,000.

Won't Admit Murder Charge

New Brunswick, N. J.—Pleading that he was crazed from drinking whisky and that he could remember nothing which occurred at the time he is alleged to have killed 5 year old Theresa Kucharski in a room at the Albany hotel here Dec. 22, George Gares, aged 54, took the stand in his own defense and refused to affirm the charge of murder for which he is on trial.

Belmont Reported Injured

New York—August Belmont, New York financier, was reported to have been taken in a private ambulance to his home after he arrived at the Pennsylvania station in his private car. He was returning from the south and was said to have been injured in a fall from a horse.

Army, Navy Cuts Proposed

Washington—A bill proposing to reduce the personnel of the army, commissioned and enlisted, to 75,000 and of the navy to 50,000, was introduced by Senator W. H. King (dem.) Utah. The bill provides that the secretaries of war and navy "shall adopt immediately" such measures as may be necessary to carry out the decrease.

Reduction in Public Debt

Washington—A reduction in the public debt of more than \$180,000,000 in December was announced by the treasury.

DOUGLAS FAIRBANKS

The great hurricane of joy and excitement, in

"The Mark of Zorro"

From the "All-Story Weekly" Novel, "The Curse of Capistrano" by Johnston McCulley. Directed by Fred Niblo.

Brings to the screen a wholesome, gingery mixture of melodrama and vigorous comedy, crammed with whirl-wind action, thrills, suspense and irresistible funny angles; with never a let-up in its headlong pace from the very start to the rip-roaring, rattling, eminently-satisfactory climax.

Also HAROLD LLOYD in "CRACK YOUR HEELS"

Saturday Only—Tom Wise in "FATHER TOM," an exciting race horse story. Also 2nd chapter of "Hurricane Hutch" & Others

NEWEST HAT FASHIONS

The popularity of the feather facing on velvet has carried it into the spring and here is shown a successful combination with straw. Like the Drum Major in the parade, is this feather effect on Milan straw, with satin binding. A crown of straw and a brim of feathers in loosely drawn strands make up this charming little hat. A feature is the disk of straw which adorns the peak.

SPORTS RAN TO FORM IN 1921 SEASON

By HENRY L. FARRELL
New York, Jan. 6.—Campaigns of 1921 failed to make many reductions in the list of America's super-champions.
Jack Dempsey, Benny Leonard and Bill Tilden completed another year of their reign as monarchs of their domain.
Only one ultra-star was dethroned—

tional upset when he knocked out Jimmie Wilde, the little British holder of the world's flyweight championship.
Benny Leonard, Jack Britton and Johnny Kilbane did very little in the way of defending their titles.
Golf had its biggest year and the crowning feature of the season was America's success in winning the British open championship through the brilliant play of Jock Hutchinson.
Willie Hunter won the British amateur; Jim Barnes won the American open; Jesse Guilford annexed the

Davis cup against Japan in the challenge round. William T. Tilden proved his right to the title as world's singles champion by again winning the British and American championships. Mlle. Lenglen won the British woman's crown and defaulted when she was playing Mrs. Mallory in the American championships.
Both baseball championships again changed hands with the two New York clubs finishing first and the world's series honors going to the Giants.
Jack Kelly, world's champion sculler, went through a light year without defending his title. The great Navy

FEAT OF GIANT LOCOMOTIVE

Biggest in the World, It Pulls a Load of Approximately Sixteen Thousand Pounds.

Visualize, if you can, a freight train over a mile in length, the longest train that was ever hauled, carrying a load of coal approximating thirty-two million pounds, pulled over the Blue Ridge and Alleghany mountains by the biggest locomotive in the world, and you have a mental picture of the feat in heavy hauling that was accomplished recently on the Virginian railway, between Princeton, W. Va., and Roanoke, Va., in the presence of 85 prominent representatives of the leading railroads in this country, which is described as inaugurating a new era in modern railroad development.

These demonstrations represented tests and trials covering a range of a wide and exhaustive nature. It was shown that the operation of the locomotive, consuming on an average six tons of coal per hour, was an easy matter with the duplex stoker, a mechanical device which takes the place of firemen.

The following are details connected with the largest demonstration train: The locomotive and tender weighed 440 tons and measured approximately 125 feet in length. The train was composed of 100 cars, each of which weighed 40 tons and measured 51½ feet. The load carried by each car represented 120 tons of coal, making the total weight pulled by the engine approximately 16,000 tons or 32,000,000 pounds.

Easiest Way Out.

Recently the Woman had a friend visiting her from the South. She enjoyed immensely the friend's stories of Aunt Drucilla, a negro mammy of the "old school," and her daughter Sally. One of Aunt Drucilla's proudest days was when the first grandchild—a girl—was born. The friend, laden with some things for the mother and little pickaninny, went to see them. On asking Aunt Drucilla what she intended calling the new baby she was greatly amused by the answer:
"Yo' see, Mis' Kate, I is bound it should be called after you and your sister, Mis' Rosalind. But then I says to Sally if we calls her Katie Mis' Rosalind will git mad, and if we says Rosalind you won't like it, so I jes' decided to name her Katie Rosalind and call her Gladys."—Chicago Journal.

That Fellow Feeling.

"You admit you were speeding?"
"Yes, your honor."
"A frank confession goes a long way in this court. What excuse have you to offer for exceeding the speed limit?"
"A man in a little old rattletrap driver drove up behind me and bawled to me to get out of the way and let somebody use the street who could get more out of one cylinder than I could get out of six."
"Umph! I do a little motoring myself. I'll let you off with the minimum fine this time."—Birmingham Age-Herald.

Some Good in All Humanity.
It is only when we trust people a little that they are able to deceive us; a man must be very bad before he deceives anyone who implicitly believes in him; and a woman, however bad she may be, is incapable of doing it at all.—Exchange.

"Apples and Honey."

Nina Salaman, the English poet and essayist, is the compiler of the book of essays, stories and poems, published under the title, "Apples and Honey." The material is drawn from the Bible, the Talmud, Zangwill, Disraeli, Wordsworth, Longfellow, Leigh Hunt and many other sources and the purpose is to show the national and spiritual aspect of Zionism. The book is intended primarily for older children and presents the pathos, joy, beauty and heroism of Jewish life. Here are songs of the Ghetto and songs of the soil, songs of nature and of love, songs of the peddlers and the martyrs. The whole cycle of the year is followed in prose and verse—feasts, fasts and festivals, the Passover, Yom Kippur, seed time and the harvest, springtime and autumn.

Saving Power on Railroads.

Tests on the elevated roads and subways in New York and Philadelphia demonstrate that a saving in power from 25 to 35 per cent can be accomplished by judicious coasting. On the Second Avenue elevated line in New York a check was kept on the motormen by the installation of coasting clocks which indicated what part of the total running time had been spent in coasting. This is hardly feasible or necessary on most surface lines, yet proper instructions to motormen, after proper training for the work, undoubtedly results in an enormous saving of power.—Christian Science Monitor.

Women Is Women.

"Not many women care much for outdoor sports, do they?"
"Oh, I don't know. Did you ever see one who did not like to hunt bargains, fish for compliments, be in the swim, play a love game, make a hit with her clothes?"
"Enough! I was wrong."—Brooklyn Eagle.

John Chinaman's Birthdays.

In China the child's first birthday is made the occasion of great festivities. It is the custom to prepare great quantities of "mien," or noodles, and send it about to all the relatives and friends. After this first celebration, succeeding birthdays are scarcely noticed until the tenth. Then another great celebration is held.

PROUD MOTHERS OF GETTYSBURG
EXHIBIT THREE PAIRS OF TWINS

Gettysburg, Adams County, Pa., claims the distinction of having three sets of twins, all regular attendants at one baby clinic. They are left to right, Doris and Dorothy Shealer, aged ten weeks; Ruth and Lovera Ernest, aged four months, and Richard and Eugene Phiel, aged seven months.

Willie Hoppe—and his downfall by the cue was perhaps the outstanding reversal of the year.
While not anything of a surprise, the fall of Georges Carpentier was another noteworthy event in the realm of international sport.
Among the boxers the most volcanic activity of the year was confined to the little fellows where the bantam-weight title changed three times.
Pete Herman lost to Joe Lynch who turned around and was beaten by Herman, who in turn dropped it again to little Johnny Buff.
Herman figured also in an interna-

American amateur; Miss Cecil Leitch repeated as the British woman champion and Miss Marion Hollins won the American woman's title. All bore strong international flavor.
End of the long regime of Miss Alexa Sterling, Canadian and American champion, and the defeat of the sensational Miss Leitch in America were unexpected results of the season.
Beyond the sensational default of Mlle. Suzanna Lenglen, the European champion, during her match with Mrs. Molla Mallory, tennis ran according to form.
America successfully defended the

crew repeated by winning the intercollegiate rowing championship.
The University of California became a new champion by winning the track and field crown and Penn State repeated by winning the baseball championship.
One of the new additions to the list of super-champions was the great Charley Paddock, from the University of Southern California, who made nine new sprinting records. Also Ned Gourdin the colored Harvard star who broke the world's broad jump record which had been on the books for twenty years.

WIFE SAYS HUBBY LOVED HER THREE SISTERS TOO MUCH

John Kirk, a Public Service employee of San Francisco, is being sued for divorce by his wife. A year after their marriage John made love to a sister-in-law, Myrtle Sinclair, he later turned his attention to another sister-in-law, Mabel Loring and then Mrs. Burnett. Left to right, Mrs. Viola Burnett, Mrs. Mabel Loring, Mrs. Myrtle Sinclair and Mrs. Alice Kirk.

FRIDAY, JANUARY 6, 1922

IMMIGRATION PROBLEM

Ten immigration "commandments" have been adopted by authorities on immigration legislation. They declare that the time has come when this country must not only for its own sake but also for the good of the world adopt certain fundamental principles regarding the coming of foreigners to her shores.

The "commandments" which have been adopted call for fair play not only for the immigrants but also for America. Under them it will be possible for this country not only to treat all immigrants with justice but to treat all nations alike. At the same time without humiliating any nation or race it will exclude completely particular types of immigration which definite experience shows to be difficult to assimilate and absorb.

The ten commandments are in full brief form by Dr. Sidney L. Gulick, executive secretary of the National Committee for Constructive Immigration Legislation, are as follows:

First, immigration should be regulated and selected both in quantity and in quality.

Second, no more immigration should be admitted of any nationality than can be wholly assimilated and in a reasonable length of time wisely incorporate into our body politic.

Third, no more immigration should be admitted than can find steady and useful employment without endangering normal American standards of life labor and wages.

Fourth, the numerical regulation of immigration should be flexible. When industrial depression sweeps the country, all labor immigration should be promptly stopped. But the doors should be kept open when prosperity returns.

It should be possible to take either step without waiting for special Congressional action.

Fifth, the closing and opening of our doors should be scientific. It should be based on assured and accurately compiled facts and statistics from every part of the country.

Sixth, the law should be general. The principles should be applied equally to every nation and people without arbitrary discrimination.

Seventh, the law should be courteous to all. It should be possible, without humiliating any, to exclude completely particular types of immigration which definite experience shows to be difficult to assimilate and absorb.

Eighth, the law should provide for the sending of expert examiners to the lands from which immigration mostly comes—this for the sake of both prospective immigrants and of our own land.

Ninth, the law should make possible a wise distribution of new immigration. The flow should be restricted or entirely stopped from given peoples, to already congested areas, and encouraged to go to those parts of America where it is desired.

Tenth, the new immigration policy should be distinctly patriotic. It should favor immigration from peoples easily assimilated and check it from other lands. It should guarantee equal treatment and a square deal to all aliens, now in the United States and should provide for higher standards for naturalization and then grant the privilege of citizenship to all who qualify. It should look to the creation of a substantial homogeneous people having a common mind and a wisely-governed democracy.

The Sterling Immigration bill is said to be based on these "fundamental commandments" which place the needs of America first.

MUCH WORK BEFORE CONGRESS
Congress on Wednesday started on its legislative program for 1922, faced with a prospect of being kept steadily at work until late in the summer. There is, indeed, a great deal of legislation of a highly important character which demands prompt action.

There is, usually, also, considerable debate over the routine appropriation bills, and there confronts the Senate

the strong probability of a fight over new international agreements resulting from the Washington Arms Conference. President Harding is understood to be prepared to forward all of them to the Senate for consideration once the Arms Conference has concluded its work. Then there is the contested election of Senator Newberry of Michigan, which is due to be acted upon early next week.

The new tariff bill must be taken up and disposed of, also the bill providing for the appointment of a commission to negotiate the payment of foreign loans due this country, besides much other miscellaneous legislation that is scheduled for the remainder of the session.

The House and Senate will for the first time deal with the measures supplying money for all government functions in budget form. These start in the House, the Treasury appropriation being the first to be taken up. Under the program laid down by Chairman Madden of the House Appropriations committee, a money bill will be put through the House each week until all are turned over to the Senate.

BARLEY AND PROHIBITION
A very interesting question just now is: "What happens to the barley the brewers used to buy?" Many people are inquiring as to the fate of one of the most important grains raised in the United States, which was formerly used as a foundation in the manufacture of malt liquors, the special market for which was, theoretically, at least, destroyed by the passage of the "Prohibition" act.

The Wisconsin Agriculturalist has made an investigation which shows that there has been virtually no reduction in the acreage of barley planted since prohibition was adopted. The crop in the United States in 1921 was 27,000,000 bushels compared with 71,000,000 bushels the year before and five-year average of 208,000,000. The reduction the past year, however, is said to be due to a unanticipated crop failure, so that the mystery remains as to what becomes of the barley in these prohibition days.

The mayor is held guilty of non-enforcement of law by the popular mind, and he asks that the city attorney be given power to swear out warrants and to prosecute in municipal court. This will give the mayor greater power.

The mayor is to be congratulated upon his efforts to keep the city from lawlessness.

There seems as yet to be considerable uncertainty as to what the Democrats of Minnesota will do in regard to holding a state convention. The party leaders are slow about expressing themselves on the subject. The uncertainty exists as to the Non-Partisan League and the Prohibition party, better known as the National party.

Here's the right sort of talk, from the Palmont Sentinel, one of the leading Democratic papers of the state: "The Democratic congressman who doesn't support the treaty, as finally agreed upon in the world conference, will not get a pleasant look from the Sentinel. With us it is every sacrifice for peace, but not one breath for partisanship."

The city of St. Cloud has a commission form of government, and a minority of dissatisfied voters are taking advantage of the recall feature. Candidates to succeed the commissioners have been announced, and the election will be held February 2—the taxpayers, of course, paying the bills.

Reductions of 20 cents a ton in the retail price of hard coal and of 10¢ in soft coal were put into effect by dealers in Duluth this week. Under the new list soft coal is quoted at \$15.05, Duluth and nut at \$15.29, pea at \$13.50 and buckwheat at \$8.50.

Julius Schmalz, the political gossip say, has a hankering after the job, and may come out as a candidate against Mike Holm for Secretary of State.

The Elmira Star-Gazette asks the pertinent question: "Why shouldn't disarmament be good for the steel industry, when prohibition has done so much for the liquor industry?"

The Only Appropriate Criticism. Actions speak louder than words; therefore criticism by creating new standards, not by finding fault with old ones.

Black Cat Hosiery

For Boys

Heavy qualities for boys' wear. This is the advertised "leather stockings." 47¢ to 60¢ qualities. 39¢ See these hose on display on the main floor. Values are unusual.

FOUR TEAMS TIED FOR FIRST PLACE

Only Two Games Difference Between
Top and Cellar Positions in
City Bowling League

FIVE MEN ON THE HONOR ROLL

Dispatch Club Had High Team Score
With 2641—Zierke Had High In-
dividual Game With 218

Four of the six teams were tied for first place in the City league in Wednesday evening's weekly contest while the difference between the top and bottom positions is only two games.

The Alderman-Maghan quint took two out of three games from the N. P. team; the Dispatch captured three straight from the Cosmos, and the Smrakers took two from Sasser's club.

Standing of the Teams

	W	L	Pct.
Sasser	14	13	.518
Dispatch	14	13	.518

MAYOR SHANKS STARTS POLICEMEN'S SCHOOL

(By United Press.)

Indianapolis, Jan. 6.—Lew Shank, erstwhile vaudeville comedian who answered an encore to the mayor's office here, started today to teach his policemen the three R's of education—readin', writin', and 'rithmetic.

"Very mild," said the former potato mayor, in describing the educational course for his blue coats. There will be regular afternoon and evening classes.

"We have got to have policemen who can make out reports someone can read," the new mayor said. "Why some of these men don't know how to spell four-letter words."

"We don't want a hard examination—just something like they have in the 4-b or 5-a grades in school. But we're going to make them pass an examination and we'll have a real school teacher that knows that stuff."

In the Pilgrim's Road.

We may fall a thousand times; but as long as we are ashamed of our failure, as long as we do not helplessly acquiesce, as long as we do not try to comfort ourselves for it by a careful parade of our other virtues, we are in the pilgrim's road.—Arthur Christopher Benson.

SAFER ROADS, STRONGER BRIDGES

The growing demand for wider and safer roads and stronger bridges has awakened the officers and directors of the American Road Builders' association to the need for action and the program committee has provided for an exhaustive discussion of the subject at the Twelfth American Good Roads Congress and Thirteenth National Good Roads Show to be held in Chicago, January 16 to 20, next.

The elimination of grade crossings will be one of the phases considered. Out of 12,000 persons killed on the highways of the country last year, 7,000 were struck down at grade crossings. Investigation has shown also that one motorist in every three is careless at grade crossings, approaching the railroad tracks at reckless speed and without taking due notice of approaching trains.

The Pennsylvania and Southern Pacific railroads, especially, have been heavy sufferers from grade crossing accidents. On the Southern Pacific lines alone during the past three years 1909 motor cars and trucks were wrecked at grade crossings. In 490 cases, or more than 20 per cent, the motorists deliberately ran into the trains. In 122 instances autos plunged through the crossing gates. Nine crossing flagmen were struck down.

In 970 cases in which motorists ran in front of the trains 136 persons were killed and 405 were injured. In 490 cases motor cars stalled on the crossing and were demolished. Forty-three cars actually collided with the danger signals.

An investigation conducted recently by the Maryland State Roads Commission demonstrated that most highway accidents occur on long stretches of road instead of at the curves and are due to speeding or reckless driving, rather than skidding.

A total of \$4,500,000 was paid out in death claims by American insurance companies for the 12,000 persons killed on the highways last year. In addition to the fatalities there were 1,500,000 non-fatal injuries.

Automobile fatalities in 1918 were 9,542. In 1919 the number increased to 9,826. Considering the 12,000 accidents last year and basing their calculations on the experiences of St. Louis, Cleveland, New York, Chicago and other cities for the first six months of 1921 experts estimate that this year's fatalities on the highways will reach 15,000. A total of 690 persons were killed on New York State roads and city streets during the first six months this year. Of this number 403 met their death in New York City.

At a recent drawing for space for the good roads show in Chicago ninety-five per cent of the 40,000 square feet of space was taken, breaking all records and necessitating the use of additional buildings to house the exhibits. Approximately \$1,500,000 worth of labor saving road machinery and appliances will be exhibited.

At the good roads congress to be held during the exposition, many subjects of importance to highway users will be discussed, including the strengthening of bridges to carry the ever increasing truck loads and a more equitable distribution of taxation for the construction and maintenance of highways. Last year Federal, state and municipal taxes on motor vehicles reached the staggering sum of \$316,720,000—equivalent to \$34 per car. Governors of states, county commissioners and mayors of cities throughout the country are being asked to appoint delegates to the congress.

To Clean Varnished Paint.

Never clean varnished paint or enamel with soap, or with soda and water. This makes the varnish dull, and it may even cause it to peel away from the wood. A better plan is to use a solution prepared with tea leaves. Collect the leaves and put them in a basin. Pour hot water over them and allow them to soak for ten minutes. Use the liquid cold for washing over the varnished surface. Finally dry and polish with a soft cloth.

Sailor Also Skillful Hydrographer.

Captain Cook, the famous navigator of the Eighteenth century, was the most skillful hydrographic surveyor of his time. His charts of the coast of Newfoundland are not yet wholly superseded by the more detailed surveys of modern times, and his charts of the Society Islands, in the Pacific, were used officially for 120 years after his death.

AMUSEMENTS

All Star Vaudeville at New Park Tomorrow

The first number on the vaudeville bill at the New Park theatre, for tomorrow, will be Meyers and Nolan, who will present one of the most clever novelty acts of the season, in a skit entitled "Song and Step Review". Miss Nolan is a vocalist of high ability, having range of five tones above C, she also is a writer composer of a number of popular songs and material for several well known stars. Mr. Meyers is an exceptionally clever dancer, having appeared at the famous Winter Garden, New York City; therefore you can certainly assure yourself of a very pleasant act, and one that will please both young and old.

The second number on this bill are Chase and Janis, in an unusually high class and exclusive offering of especially written songs and character closing with some very graceful dancing. Their comedy chatter is new and charming, while their songs are tuneful and catchy. The little lady is dainty and pretty and has an abundance of personality while offering her songs, displaying several exclusive and beautiful gowns, while the gentleman has a wonderfully well cultivated baritone voice, so altogether this is an exceedingly well matched team, with an act of the highest standard.

The third number on this bill is

Murray K. Hill, who has an act composed of monologue original songs, parodies and recitations. This act will prove most interesting when you learn that Mr. Hill has spent three years with Victor, three years with Edison and five years with the Columbia Phonograph Companies, having played all the big time vaudeville, while his material is exclusive and right up to the minute. This act is very highly recommended.

The fourth and last act on this bill are Yonie and Fuji, two Japanese artists, presenting an act entitled "A Japanese Classic". This act is very new and original as are all acts of this type. Yonie and Fuji are the first Japanese to present an American act, therefore it certainly will be very novel and interesting.

The photo feature to be shown with vaudeville is "The Trail to Red Dog", a western.

Fairbank's Latest Picture His Best

Never before has Douglas Fairbanks waxed so enthusiastic over the success and admiration of a picture than he has over "The Mark of Zorro," his fourth United Artists' production which will be the feature attraction at the Lyceum Theatre, tonight only.

The story is an adaptation of Johnston McCully's novel, "The Curse of Capistrano," which appeared in the "All Story Weekly" magazine.

Those critics who have viewed "The Mark of Zorro" have proclaimed that Fairbanks has excelled any of his previous performances. This is due to some extent to the ingenious story and the opportunities afforded "Doug" to

make the greatest use of his athletic ability.

With Noah Berry, Robert McKim,

Charles Hill Mailes and Marguerite DeLaMotte, his leading lady, collected in his cast, Fairbanks has left nothing undone to assure the public the best obtainable in motion pictures.

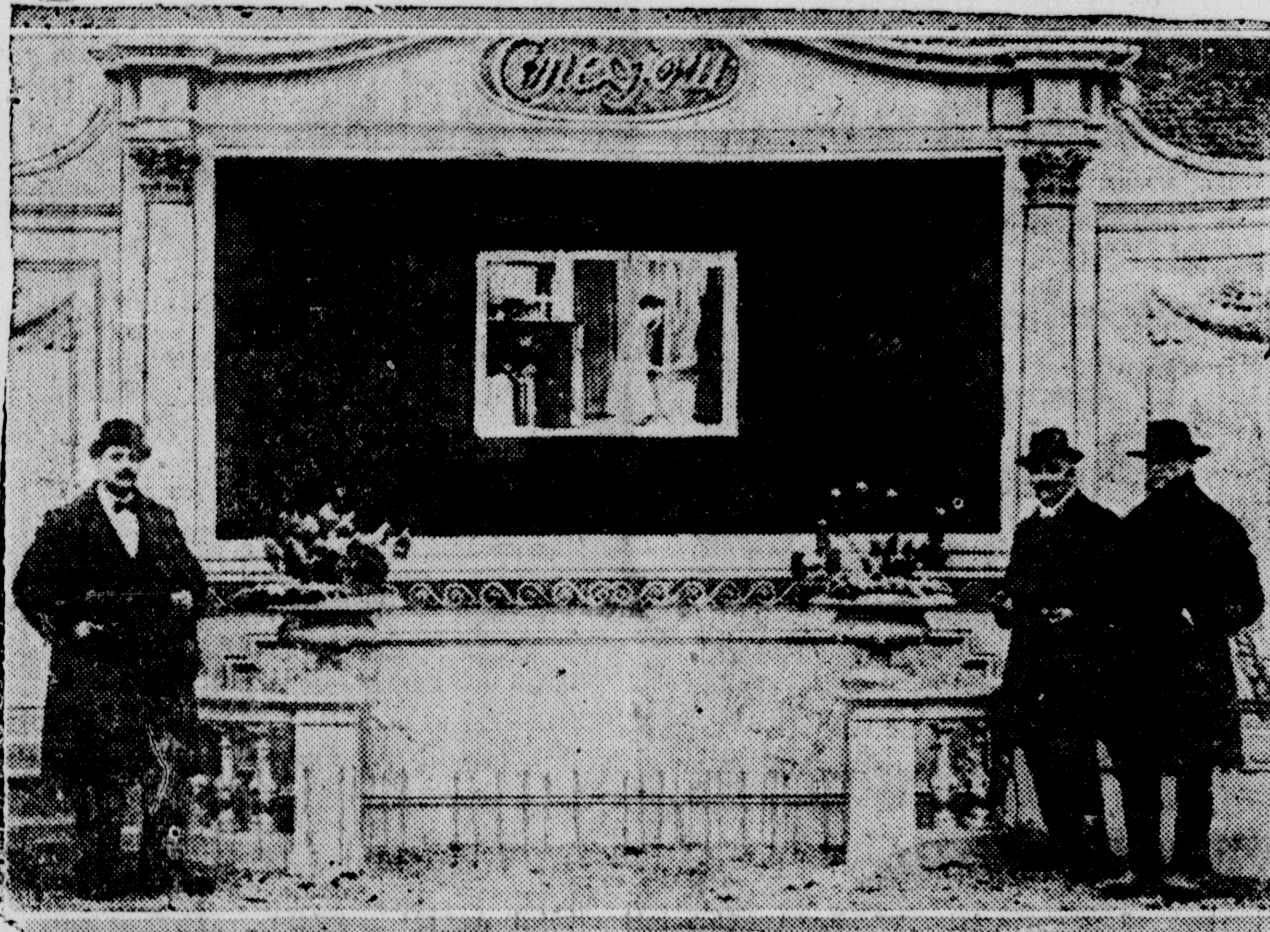

Tom Wise on Screen

Genial old Tom Wise, a favorite of the American stage for many years, comes to the Lyceum Theatre for one day Saturday in "Father Tom," an original story by Karl Krusader, directed by John B. O'Brien and presented by Playgoers.

Father Tom is a kindly old soul with a justifiable pride in his prosperous little community and a passion for making others happy and contented. He finds comedy and tragedy and romance in the daily life of those about him.

In leading support of Tom Wise is pretty young Nancy Deaver, Alexander Clark, Harry Boler, May Kitson, Myra Brooks and others.

MOVIES BY DAYLIGHT! A FRENCHMAN CLAIMS THE INVENTION

Mr. Ernest Bertrou, a Frenchman, has just invented a moving picture machine which will clearly project "movies" in full daylight. This photo shows a demonstration in progress. Note that a black sheet replaces the white one now in use.

Let's Go

Do you know that January is the best month for you to trade your old car for a new one? First, you do not have to get two licenses as they are not transferrable, and go with the car when you sell it. Next, when things are a little cold and quiet we like to get them moving and will give you a better deal than we can later. The new cars have all dropped way down for a big year's business, some as much as \$555.00 since August.

Let's Go! Bring in your car and see if we can make a deal.

LABOR TO HAVE BIG MASS MEETING

John J. Manning, Secretary of Union Label Trades Department of American Federation Labor

ON THE PROBLEMS OF LABOR

President E. G. Hall of Minnesota State Federation of Labor on Trade Union Movement

Labor will have a big mass meeting in Trades & Labor hall, in the Iron Exchange building, Tuesday evening, January 10th, when two outside speakers will address laboring men and women.

John J. Manning of Washington, D. C., Secretary of the Union Label Trades Department of the American Federation of Labor and E. G. Hall, President of the Minnesota State Federation of Labor, will be the speakers.

Mr. Manning will speak on the problems of labor and their accomplishments in behalf of the working men and women and it will be well to hear what more may be done along this line. He will deliver a message as to the best way to solve the industrial problems confronting the workers of this state.

President E. G. Hall will speak on the trade movement of Minnesota.

Every one is welcome and urged to attend, especially the women of the home.

S. A. F. Meeting

Lodge 57, S. A. F., will hold their regular meeting Saturday, Jan. 7, at 7:30, Odd Fellows Hall. Open installation by Brother Anton G. Hanson of Minneapolis. Program, refreshments and social time after meeting.

All members urged to be present and everybody welcome.

Annual Meeting

At the annual meeting of Zion Evangelical Lutheran church, corner Main and Broadway, the following officers were elected:

President—F. H. Gruenhagen.
Deacon—Ernest Husemann.
Trustee—Fred Gruenhagen.
Treasurer—Ed Gruenhagen.
Secretary—Wm. Frost.

Church Bulletin

The First Baptist church is instituting a new church bulletin to be published weekly, with the first number distributed Sunday, January 8. It will contain church organization notices, church news, etc.

Entertains at Birthday Party

Mrs. Arthur L. Koop and sister, Miss Ella Newgard, entertained on Thursday afternoon at the home of the former, Flat 3, Koop block, in honor of their mother, Mrs. P. J. Newgard, on the occasion of her seventieth birthday. Fifteen guests were present. Mrs. Newgard received many very beautiful presents. A delicious luncheon was served by the hostesses. The rooms glowed with cut flowers and ferns.

BRAINERD'S ODDEST STORIES OF TODAY

Speaking of the action of gasoline, said a Brainerd garage man, a quart of gas will move an automobile three miles. A quart used in household cleaning may cause the Brainerd fire department and an ambulance to move the same distance.

Mammoth Organs.

Amongst the largest organs in the world are the Haarlem instrument, which possesses sixty stops and 8,000 pipes; the Albert Hall organ, with 125 stops; the organ in St. George's Hall, Liverpool, with 110 stops; one at St. Louis, which boasts 150 stops; and one in Sydney Town hall with 125 stops.—London Tit-Bits.

Breathe Through the Side.

The caterpillar has no nose yet he does a regular A No. 1 job of breathing. He has a mouth, but nature has so arranged it that he can utilize this organ exclusively for feeding and doesn't have to breathe through it. He does all his breathing through special apparatus consisting of nine holes on each side of his body.

Interesting Calculation.

It is estimated that if a simple grain of electrons (a pea weighs a grain) could be isolated at the South pole, they would repel each other with a force of 112,000,000 tons.

World's Oldest Language.

Though there is some difference of opinion, many authorities concur in the belief that the oldest language in the world is Sanskrit.

ORE SHIPMENTS DECREASE

Only 38 Per Cent of 1920 Tonnage Handled This Season

Ashland, Wis., Jan. 6.—Shipment of ore in 1921 from the mines of the Lake Superior district amounted to only 38 per cent of the totals for 1920, and this figure is held to be indicative of business conditions throughout the country, if not the world.

During the season just closed numbers of great lake freighters lay idle, while others ran on a part-time schedule only. For this reason shipments fell off very materially, the figures for seven main points being in gross tons: Escanaba, 1,806,656; Marquette, 786,946; Ashland, 2,264,705; Superior, 4,991,278; Duluth, 9,164,803; Two Harbors, 3,286,338; Chipcote, 52,145.

This total of 22,352,871 gross tons does not seem very large when compared to the 58,527,226 tons shipped in 1920 from the same ports except Michipicoten, Ont., which entered the field the past season. Not in 24 years has such a small tonnage of ore been shipped from Ashland, 2,067,637 tons being the lowest previous tonnage from this port in 1897.

In spite of the poor showing for 1920, marine men say they are confident that 1922 will be a much better year for lake shipping than 1921. They assert that, while there are large stocks of ore on the docks of Lake Superior ports, better business conditions are already in sight. They look to increased railroad building and replacement work, and to increased building in cities to make 1922 a good year.

Obituary

Mrs. O. J. Beaudry who died at Belle Prairie was born at Louisville, Canada, on September 20, 1877. She removed to Chippewa Falls, Wis., at an early age and resided there until she was married May 21, 1900 to O. J. Beaudry of Stewart, Minn., where they lived until they removed to Belle Prairie in May, 1920.

She leaves to mourn her loss her husband, a daughter Anna and son Thomas; also her mother Mrs. Solomon Girard of Chippewa Falls, Wis.; three brothers, Theophile, Fred and Alphonse Girard, all of Chippewa Falls; four sisters Mrs. S. Lambert of Brooks, Minn.; Mrs. Thomas Godfrey of Chippewa Falls; Mrs. H. A. DeChayne of Eau Claire and Miss Praxedes who lives with her mother.

Other relatives to attend the funeral were Mr. and Mrs. Joseph Girard and Ed Girard of Brainerd. Mrs. Beaudry was a devoted mother and housewife and her untimely death will be a sad memory to her wide circle of friends and relatives.

BIGGEST CHILDREN IN GOLDEN WEST

(By United Press.)

Washington, Jan. 6.—California, sunny land of fruits and flowers, also produces the best children of any section of the Union.

The children of the far western state six years of age and under are slightly taller and heavier than those of any other group at the same age. It has been found by the Children's Bureau of the Department of Labor, which has just completed a compilation of the largest mass of data along this line ever gathered in the United States. A total of 172,000 records were tabulated.

The reason attributed by the Bureau is the favorable climate of California.

The children of smallest stature, on the other hand, are found in the other corner of the country, in New York City. The presence there of so large a number of short-statured races, such as the Italian and the Jewish, is the cause, the Bureau believes.

As to city and country, the records show that children who grow up in the freedom of the rural districts are slightly taller and heavier on the average than their city bred cousins.

It was also shown by the investigation that negro children under four years of age are slightly lighter in weight and smaller of stature than white children of the same age, though at five years of age practically no difference is noticeable. The deficiency at the early age, the Bureau believes, is due to poor nutrition and unfavorable social and economic conditions that cause a high mortality among colored infants, and also to a possible racial difference in ratio of growth.

As to difference in male and female it was found by the Bureau that boys under six years of age average from one-third to one-half an inch taller and weigh about a pound more than girls of the same age.

BETTER BUSINESS IS NEW SLOGAN

Rotarians Behind a Continent-Wide Campaign to Speed Up Business in United States

BILL BOARDS IMPRESSED

First of the Bill Boards Posted at Brainerd Bears Legend to Work for U. S. A.

Billboards have started to blaze in the prosperity drive in the United States and Canada. The first posted at Brainerd stated:

"This is our country, yours and mine. We fought for it, now let's work for it."

The Rotarians are behind a continent-wide campaign to speed up business, do away with unemployment, start factories, put more salesmen on the road, help retailers sell goods, find a market for farm products and restore normal conditions.

Ivan B. Nordhem, head of one of the greatest outdoor advertising companies in the world, with headquarters in New York, was the originator of the campaign.

For three months 8,000 cities and towns throughout the United States will be posted with these optimistic messages.

President Harding so heartily approved of this movement that he personally wrote and signed the first message.

In all, 100,000 posters will be put up and it will take 140 tons—280,000 pounds, of paper for these posters.

Lithographers donated to the enterprise, Rotary clubs are helping and others. The Brainerd Rotary club on Friday took up a collection to aid the movement.

"It's all in a state of mind," says Mr. Nordhem. "Everyone is agreed on that point. With nearly 120,000,000 people, with our productive farms, mines and forests, with two-thirds of the world's gold in the banks and treasuries, with our highly developed transportation system and with our efficient manufacturing organizations, we are in an enviable condition."

"We owe it not only to ourselves, but to the entire world, to start some action that will establish that faith and confidence are all that is necessary today for progress and prosperity."

Sinclair-Olson

Robert Sinclair and Miss Sophie Olson were married at the Presbyterian church manse on Thursday afternoon by Rev. S. M. Kelly.

ELKS LODGE HAS A BIG NIGHT

Alaskan Gavel Presented to Brainerd Lodge No. 615 by J. A. Bachelder of Nome, Alaska

RARE TROPHY APPRECIATED

Social Session Includes Athletic Exhibition of Sparring and Wrestling, Etc.

Thursday night, January 5, was a big night in Elksdom. After attending to a lot of business matters the lodge under good of the order received the beautiful Alaskan gavel presented to Brainerd Lodge No. 615 by J. A. Bachelder, Nome, Alaskan banker.

The Exalted Ruler conveyed to Mr. Bachelder the appreciation and thanks of the lodge for the unique gift. A rising vote of thanks was tendered him. Mr. Bachelder is No. 6 on the charter list of Brainerd and although for years he has lived on the fringe of the Arctic circle, separated only by Behring straits from Siberia and the Far East, he has always kept a warm spot in his heart for Brainerd lodge.

The gavel is unique. No lodge on earth, Elks or any other, now possesses a similar gavel. Made by Esquimaux artisans, the head of the gavel is from the tooth of a whale. To this was added, by direction of Mr. Bachelder, a handle made of a walrus tusk, beautifully carved and with the head of a seal molded at the end. The base of the gavel head is encased in silver and bears these words: "Presented to Brainerd Lodge No. 615 by J. A. Bachelder of Nome, Alaska". To this the lodge will add the date, "January 5, 1922".

Mr. Bachelder was called for a talk and gave his listeners an interesting account of experiences in Alaska, of the temperature which is not much different than in Minnesota. In winter the sun rises at 10 a. m. and sets at 2 p. m. In October the freeze up comes, the last boat has left and if a man wants to leave Nome then for the States he would have to travel by dog team which would cost about \$1500.

We are Faithful to all of the accepted precepts of our profession. Each trust imposed upon us is fulfilled with ability and fidelity.

D.E. WHITNEY
DIRECTOR OF FUNERALS
720 FRONT ST.
BRAINERD, MINN.

mining, reindeer culture, fur trade and to which has been added a most lucrative tourist trade in summer months.

At the social session there was a fine sparring exhibition between Billy Kutka who out-pointed Jimmy Dupree of White Bear recently and Buntis Fogelstrom. Some fast foot work, clever blocking and pivoting was shown.

In the wrestling match Buck Schiel, light weight champion of Brainerd, weight 123 pounds, successfully opposed "Buck White, weight 135 pounds. Charles Stadlbauer was referee. The first fall went to Schiel with a head scissors in three minutes. The second fall went to White who grabbed and held a told hold, time 8 minutes, 54 seconds. The deciding fall went to Schiel who clapped on a scissors on White that held, time being 2 minutes, 52 seconds.

In both exhibitions, nice work drew heavy applause from the large assemblage present.

C. D. Johnson gave a buck and wing dance and then challenged any man of 70 to a wrestling match.

The house and social committee, operating under the direction of Chairman Clyde E. Parker, put on an excellent lunch and cigars. Fully a hundred members were present.

Walter F. Kunitz, chairman of the new membership drive, announced preparations under way for a class of 100 to be initiated in February.

Mr. Parker told of the Christmas party given Brainerd kiddies and of the surplus candy, apples and nuts being distributed in the countryside among various organizations.

The Elks all home talent play will be staged in February, said Mr. Parker, and will be a world heater. There will be one hour of excellent pictures and one hour of the most ea-

tertaining vaudeville gathered from every nook of Brainerd Lodge No. 615 jurisdiction. The show may run two nights, or four performances.

Play—Flee—Fly—Flow—Flum
A fly met a flea in a flue. It was hotter'n hell for the two. At both ends was smoke, You'd think that they'd choke. They were both in a terrible stew.

Now they both spied a flaw in that flue. Right away they got wise what to do. Said the fly, "let us flee". Said the flea, "let us fly". So they flew through that flaw in the flue.

DISPATCH ADS PAY

Welcome, 1922!

¶ The new year opens with promise of seeing many of the clouds of uncertainty and discouragement of the past year scattered, revealing a clearer vision of the larger prosperity which we know is ahead.

¶ To do its part in promoting greater national prosperity by furthering conscientiously the welfare and growth of Brainerd and vicinity, the Brainerd State Bank stands unreservedly pledged.

¶ The confidence shown in this institution by its ever-widening circle of friends urges us on to still more friendly and helpful service day by day, year by year.

This piano was purchased by one of our out-of-town lady customers. Her husband died suddenly and she wants us to sell it for her. Can be seen at our store. Any one needing a piano can get a real bargain.

NORTHERN HOME FURNISHING CO. INC.

WILD LEMONS IN PROFUSION

According to Traveler, They Are a Generous Gift of Nature to Island of Norfolk.

Lemons grow wild all over the island of Norfolk, a British possession in the South Pacific, according to Thomas J. McMahon, in the Trans-Pacific Magazine. He writes that in every garden and paddock are clumps of trees ever bearing fruit in wonderful abundance, and of a variety full of rich juice and with a rind most suitable for lemon peel.

Little factories, family concerns, are dotted all over the islands. They are usually roughly constructed wooden buildings divided into three rooms. There, with rather primitive instruments, the women cut and squeeze the lemons in huge frames, and the skins are soaked in brine preparatory to making lemon peel. During the lemon season, which is most of the year, the boys and girls are engaged daily in picking the fruit.

While there are only 800 people on the island, it could comfortably and prosperously house 5,000 persons, according to Mr. McMahon. The island is five miles long, three miles broad and contains 8,000 acres.

Finding Speed-Rates of Insects.
Experts of the United States Department of Agriculture have just been carrying out some tests to discover the speed-rates of different species of flies. In a district of northern Texas 234,000 flies of various species were caught, were dusted with finely powdered red chalk, and were then liberated. Fly-traps, baited with food especially relished by flies, were placed at measured distances from the point of release. It was found that most flies would travel distances up to 1,000 feet in a few minutes. The house-fly covered over six miles in less than 24 hours. The maximum distance traveled by it in these experiments was 13.14 miles.

Whether it made this stopping place its permanent home or returned toward the starting-point is not recorded in the accounts that have appeared.

The Wonder Boy of Baseball Who Will Don a Giant Uniform in 1923

New photo of Jim O'Connell, photographed since his purchase by the Giants for \$75,000.

Willing Enough.
A negro strolled into a public library. "Ah want an encyclopaedia," he said. "Whose encyclopaedia, and what volume?" asked the attendant. "Ah don't rightly know," was the answer. "It's like dis: Us colored folk done gone organize a library society. Ah'm on de program for a paper on 'Current Events.' Ah's jes' like ter kinder read up a bit on de subject."

The Neutral Background.
A clue to the effective use of color in interior decoration is to be found in a consideration of the ways of nature. Here we find the large areas in the softer colors, with accents in brilliant but small patches, as in flowers and birds. A field of quiet color makes the best background to offset beautiful and high-colored objects. That is why all walls and floor coverings are preferred in neutral tones.

Woman in Civic Affairs.
There is promise of better things for Connecticut in the fact that the League of Women Voters of that state has sent out a questionnaire bearing the slogan, "Know Your Own Town." This should be well worth doing for the information to be obtained, intended for the local communities, and as a basis of future state legislation. But no doubt the most important factor in the activity is, as the workers seem to think, the awakening among women of an interest in civic affairs. The neighborhood is certain to hold interest for anyone, and so is a good starting point.—Christian Science Monitor.

Seattle Saves Money.
Seattle, Wash., is saving its citizens approximately \$1,000,000 a year by reason of the lower rates it enjoys for electricity through its municipal plant. The retail rate is 6 cents per kilowatt hour, whereas the rate under private ownership was 8½ cents.

SAME RESULT, AND CHEAPER

Somewhat Rough on the Cat, but Five Dollars is Something These Hard Times.

Expert testimony may be valuable from a scientific point of view, but there are often cheaper ways of establishing a certainty, as the following shows.

An Irish laborer entered a drug store, and drawing a paper bag from his pocket, poured on the counter a number of very sticky and unattractive looking pieces of candy.

"Can you examine this candy?" he asked.

"It looks queer. What's the matter with it?" asked the druggist.

"Pizen, O'm thinkin'. Did ye iver see such stuff? Dinis McGuire give thim to me b'y, an' Dinis is no frind of moine."

"Well, I can make an analysis."

"All right. O'll come in tomorrow on me way from work."

The Irishman had reached the door, but he suddenly stopped with his hand on the latch.

"And how much will that analysis cost me?" he inquired.

"Five dollars," was the answer.

The man walked over to the counter and swept the candy into the bag, which he replaced in his pocket.

"Niver mind," he said. "O'll feed wan to the cat."—Philadelphia Ledger.

CATARRH OF THE STOMACH

YOU CAN'T ENJOY LIFE with a sore, sour, bloated stomach. Food does not nourish. Instead it is a source of misery, causing pain, belching, dizziness and headaches.

The person with a bad stomach should be satisfied with nothing less than permanent, lasting relief.

The right remedy will act upon the linings of the stomach, enrich the blood, aid in casting out the catarrhal poisons and strengthen every bodily function.

The large number of people who have successfully used Dr. Hartman's famous medicine, recommended for all catarrhal conditions, offer the strongest possible endorsement for

RED PEPPER FOR COLDS IN CHEST

Ease your tight, aching chest. Stop the pain. Break up the congestion. Feel a bad cold loosen up in just a short time.

"Red Pepper Rub" is the cold remedy that brings quickest relief. It cannot hurt you and it certainly seems to end the tightness and drive the congestion and soreness right out.

Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down into colds, congestion, aching muscles and sore, stiff joints relief comes at once.

The moment you apply Red Pepper Rub you feel the tingling heat. In three minutes the congested spot is warmed through and through. When you are suffering from a cold, rheumatism, backache, stiff neck, or sore muscles, just get a jar of Rowles Red Pepper Rub, made from red peppers, at any drug store. You will have the quickest relief known. Adv.
